

Lending

Overview:

As member needs continue to shift, not only has the composition of the loan portfolio diversified, but also the components that make up the portfolio.

Known for looking out for the best interests of their members, credit unions need to continue adapting their offerings to ensure they make available the products that their members need. The CUtv “Lending” channel features webinars containing market analysis of the latest lending trends along with the best practices credit unions are using to grow their loan portfolio.

Audience:

This channel appeals to all staff responsible for growing products through increased loan volume.

This channel meets the specific interests and needs of:

CEOs

CFOs

CLOs

Loan Managers
